Dear Millie

We have been pretty
busy this week. We had a
flying visit from Aunt Jane
and Cousin Lene. They came
up Tuesday eve and went
back Wednesday morn. They
had intended to stay till
eve of Wed: but as we were
to have the sewing society
that afternoon they went back
in the morning. We had the
S.S. and sunshine. I told
Annie to stay in her room
until teatime and I would
excuse her to the ladies
and she did so. So I do not
think she got tired about it.
I thought you would come
up this week, but perhaps

you have to go to Dr. Knox's.
Be sure and come next week.
Do you think Joe will be
able to get along in his
Algebra. It is not good
for him to go into a class
that is ahead of him. It
seems to me he had better
go into one that would
give him some review.
It was fortunate for him
that he saw you at the boat.
I am very sorry to hear of your
tooth breaking. I wish you
had a set like Joe's. I dont
suppose however that you
would be willing to trade
heads even for the sake
of getting such teeth, that
is to say if the contents were
to be included in the trade.
By the way was it a front tooth
that was broken.

Annie is going to Santa Cruz
for a time. She will not
go I think till Charlie
comes home, because I want
to take her ~~home~~ down in
the buggy and I cannot
very well go till Charlie
comes. However if Auntie
thinks it better to go sooner
we shall go. Aunt Jane W.
is to go down with her
and she is to try the warm
sea baths.
I see in the paper the marriage
of Ed. O. Webb of Haywoods
to Mrs. Flora Madden. Mary
Brier is having rather a rough
time down in Tulare. After
she had bought her ticket
and just the day before she
left, she rec. a letter from
one of her Trustees with
whom she had had no previous
